

MCP – 70-270 COURSE

The **Microsoft Certified Professional (MCP) 70-270** qualification in Installing, Configuring and Administering Windows XP Professional is for professionals who have the skills to successfully implement a Microsoft product or technology as part of a business solution in an organisation.

The main goal of this training program is to give users the knowledge and skills so that they can effectively perform their job as a Microsoft Certified Windows XP Administrator.

Our unique distance learning training programme is delivered in Paper based and CD Rom materials and comes with an additional examination card displaying important information about the qualification and exams.

The course also has access to Official CertBlaster and MeasureUp exam preparation software.

PLEASE NOTE: The MCP 70-270 Course is designed as a theory-based course but does contain all relevant information on how to complete practical exercises. The course books that we use are Official CompTIA Press Course materials.

Benefits of MCP Certification:

- **Industry recognition** of your knowledge with Microsoft products and technologies;
- Access to technical and product information, through the MCP Secured site;
- **Invitations** to Microsoft conferences, technical training sessions, and special events.; and
- **An MCP logo, certificate, transcript, wallet card, and lapel pin** to identify you as an Microsoft Certified Professional (MCP) to colleagues or clients.

The MCP 70-270 Certification course consists of the following items:
